DETAILED ACTION

1. This action is responsive to communications: Application filed on 8/20/2003.
2. Claims 1-33 are pending in this case. Claims 1, 12, 20, and 30 are independent claims.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 11, 20 – 29, and 30 - 33, drawn to comprising connections of TCAM, classified in class 365, subclass 49.
 - II. Claims 12 - 19, drawn to comprising a repair signal generator and precharge circuit of TCAM, Classified in class 365, subclass 203.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are Group I, substantially directed toward TCAM comprising connections of comparison circuit. Group II, substantially directed toward TCAM comprising a repair signal generator and a precharge circuit.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Chau Frank on Thursday 3/10/05 @10:30 a.m. to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
